

ROTOMETRICS  
ROTOREPEL™ & ROTOREPEL™ RX

## Keep Your Dies and Idler Rolls Cleaner, Longer

Solve the toughest ink, and adhesive challenges while improving overall performance and productivity.

Our exclusive line of RotoRepel™ treatments is going to change what you expect from an ink and adhesive control in a nonstick coating. Need an FDA-compliant formula? Choose our premium RotoRepel™ Rx, which is compliant with Food Contact Regulations.

Coat any RotoMetrics Flexible or Solid Die, and Componex and WEBEX Precision Idler Rolls with no added lead time. RotoRepel™ pays for itself in the first use- presses run faster and dies last longer.

### Key Features

- Presses run faster and less press shutdowns
- Reduces ink and adhesive buildup on all composition types
- Less die damage due to less handling
- USFDA safe for intended use
- Fewer missing labels & reduced rewind blocking
- Reduces static

### ROTOREPEL™ RX

Same benefits of RotoRepel™ plus FDA regulatory compliance.

- RotoRepel™ Rx is safe for intended use in conversion of parts, devices and labels
- On file with US Food & Drug Administration  
Can be used with 510(k) submission
- Compliant with US FDA Food Contact regulations
