4a Manufacturer's assessment statement

Narrative summary of the conformity assessment, supporting the article-by-article matrix in Section 5.

The packaging described herein has been assessed in accordance with Annex VII (Module A — Internal Production Control) of Regulation (EU) 2025/40. The manufacturer declares that the packaging meets the applicable requirements of Articles 5 through 12 as follows: substance concentration limits under Article 5 are addressed via supplier declarations held in the technical file (currently ON FILE for this family); packaging weight and volume have been minimised under Article 10; the packaging is fibre/wood-based with only trace plastic, so Article 7 recycled-content minimums (plastic) are not in scope; Article 6 design-for-recycling grades for the fibre fraction phase in from 2030; labelling under Article 12 applies from 12 August 2028. This packaging is single-use, one-way, and is not placed on the market as reusable, so Article 11 reuse-system requirements do not apply.
